FORMAL TRANSFER
OF WATER WORKS

Will Be Made at Tucumcari
City Council Meeting
Tonight.

Tucumcari, N. M., June 19.—The formal transfer of the Tucumcari water works system, which was ordered purchased lately at a city election for the sum of \$65,000, will be made in this city Monday night, when deeds to the property and bills of sale will be given. The money from the sale of the bonds, which was consummated Saturday, is on deposit to the credit of the city in a Kansas City bank. A telegram was received here to that effect.

Sufficient piping for three miles of additional water mains will be shipped at once from Ballard, Washington, where the order has been given. Several more miles of mains will be laid as needed. About 50 new fire plugs will also be installed. The general

management of the plant will be with Harve Brinkley, who has had charge of the works for several years under the old management. Miss Krantz will be in charge of the books and the water office will be in the Wells-Fargo office, on East Main street. It is considered that the municipal ownership of the system will net the city in the neighborhood of \$5000 annually and the move is looked on with favor by the mass of the people.

A runaway team threatened serious accident to a number of people on the intersection of Main and Second streets. No great damage, however, was done, with the exception of the smashing of the wagon attached to the team, and the partial destruction of two or three buggies which were standing along the street.
